The City of Geneva is seeking Requests of Proposals (RFP) for a qualified consulting Forester to serve as an independent contractor

The following qualifications and experience are highly desired for all submitting candidates for the position of consulting Forester:

Education and Training:

- The successful candidate shall have a bachelor's degree in forestry, urban forestry or related field (Landscape Architecture or Natural Resources is not a related field)
- Be an International Society of Arboriculture member, Board-Certified Master Arborist
 (BCMA) with the Municipal Arborist certification
- Possess the Tree Risk Assessor Qualification (TRAQ)

Experience:

The candidate must have extensive urban forestry consulting experience and be able to produce references

The candidate must be able to demonstrate the ability to:

- Develop and conduct urban forestry needs assessments
- Conduct risk assessment for large populations of trees
- Develop master plans and management systems for diverse communities
- Conduct an urban site index survey
- Produce a master planting design
- Train and supervise arborists in all facets of municipal arboriculture
- Write and deliver education programs to a wide range of audiences in a diverse range of locations
- Work with the public, municipal employees and officials

The candidate should have a working history and/or familiarity with the City of Geneva

All proposals should be submitted to:

The City of Geneva
